

July 5

NCCC-170 and USSES members and other participants,

I am starting to put together the final report for this year's NCCC-170 meeting. For the Accomplishments, Current Goals, and Impacts sections of the report, I will use essentially the same wording that was used last year. The section of the report that I need information from each of you is the Outputs section.

The section is subdivided into Workshops, Presentations, Books, Publications (refereed), and Other project related activities. The timeframe for this year's entries is from October 1, 2017 through September 20, 2018 which corresponds to the Federal fiscal year. Even though the end of the reporting period is three months from now, it would be reasonable to report items that you are fairly comfortable saying that they will come to fruition before then.

Please send me any contributions that you have by the end of this month (July 31). I will send out a draft of the report in early August. At that time, you will be able to make any additions and corrections to your entries. To help avoid duplication of entries from last year's report, you can find a copy of it on the project website (<https://sites.uark.edu/ncr170/>). It can also be accessed through the NIMSS (National Information Management & Support System) website (<https://www.nimss.org/>).

I look forward to hearing from each of you. Thank you for your assistance in putting together our annual report.

Ed
