

Dear NCCC 170 members,

As you know, we have been approved for our annual meeting on June 22-23 2017. This year, Neil Paton will be kindly hosting us at Cargill Animal Nutrition in Elk River, Minnesota. Neil will be in touch regarding logistical arrangements, hotels and such, as well as other activities in the area.

Also for this year, I will be serving as your chair for the technical program. Thus, I am opening the call for abstract and technical talks. If you would like to give a talk, please submit your abstract to me by email and indicate the intended length of your talk, recognizing that we value and encourage time for discussion. I anticipate we will have some flexibility to allocate anywhere between 30 to 60 minute per talk. I would please like to have your abstracts by May 19, if at all possible.

Looking forward to seeing you all in June.

Best regards,  
Nora
