

May 1

Hi All,

I've heard from a few of you, but we're still looking for talks for our NCCC-170 meeting next month. If you have a finished project, a work-in-progress, a crazy idea, or even just a question/dilemma you'd like to bounce around, please let me know. You could give a short or a longer talk (or discussion) depending on your preferred time allotment. Thank you!

-- John Stevens (doing my turn as program chair)
